

CR-526

Concentrated Oxygen Scavenger

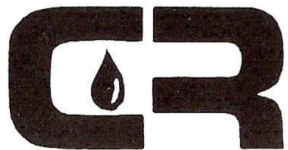

DESCRIPTION	CR-526 is a liquid oxygen scavenger for use in large boilers to prevent corrosion in the storage section of the deaerator or feed water tank, feed water line, and boiler.
ADVANTAGES	CR-526 can be fed direct from the drum, eliminating the need for a separate chemical feed tank.

CAUTION

Contains strong chemicals. Avoid contact with eyes, skin or clothing. May cause burns.

FIRST AID

In case of contact remove contaminated clothing and shoes. Flush eyes or skin with water for 15 minutes. Call a physician. Wash clothing before reusing.
