

CR-529

Neutralizing Amine

DESCRIPTION CR-529 contains a volatile amine which vaporizes with the steam, neutralizing the carbon dioxide.

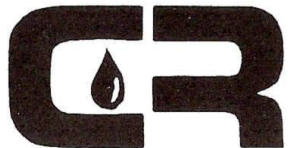

ADVANTAGES By raising the pH of the condensate return, CR-529 controls acid attack on return lines.

CAUTION

Contains strong chemicals. Avoid contact with eyes, skin or clothing.

FIRST AID

In case of contact, flush eyes or skin with water for 15 minutes. Call a physician.
